

**INDEX OF GOOD THINKING: CONVERSION FROM PAGE  
NUMBERS TO PUBLICATION NUMBERS**

**This “conversion” list is for those incredibly unfortunate people who don’t have a copy of *Good Thinking*. One subject index in that book naturally refers to the pages of the book. The present list shows the corresponding publication numbers. The other subject index in the book refers directly to numbers of about 450 publications whose titles are listed in the book. These go only up to number 1517. My “Shorter publication list” goes up to number 2378. I hope to index that list but it will be at least several months before I can get round to doing so, if ever. (I am 86 and have many other commitments.)**
