Colloquium Schedule Spring 2017

| DAT] | E | | SPEAKER AND TITLE |
|---|----|----------|---|
| All colloquiums are held in 300 Seitz unless otherwise noted. | | | |
| January | | | |
| Thursday | 26 | Speaker: | Richard Hahn, University of Chicago |
| (3:30 p.m.) | | Title: | Bayesian Causal Forests |
| March | | | |
| Thursday | 16 | Speaker: | James Scott, University of Texas at Austin |
| (3:30 p.m.) | | Title: | Finding radiological anomalies |
| Tuesday | 21 | Speaker: | Chin-Shang Li, University of California, Davis |
| (3:30 p.m.) | | Title: | A Generalized Partially Linear Single-Index Model with Its Applications |
| Thursday | 23 | Speaker: | Roshan Joseph, Georgia Tech |
| (3:30 p.m.) | | Title: | Deterministic Sampling Techniques for Bayesian Computation |
| Tuesday | 28 | Speaker: | Hongmei Zhang, University of Memphis |
| (3:30 p.m.) | | Title: | From variable selection to differential Bayesian networks |
| Thursday | 30 | Speaker: | William Myers, P & G |
| (3:30 p.m.) | | Title: | New Experimental Design Methods for Computer Experiments |
| April | | | |
| Thursday | 13 | Speaker: | Jennifer Hoeting, Colorado State |
| (3:30 p.m.) | | Title: | Parameter inference and model selection in deterministic and stochastic dynamical models |
| Thursday | 20 | Speaker: | Derek Bingham, SFU |
| (3:30 p.m.) | | Title: | Bayesian model calibration for generalized linear models: An application in radiation transport |
| Thursday | 27 | Speaker: | Nalini Ravishanker, University of Connecticut, Storrs |
| (3:30 p.m.) | | Title: | Modeling Inter-event Financial Durations using Martingale Estimating Functions |
