## Colloquium Schedule Fall 2018

DATE	4		SPEAKER AND TITLE
All colloquiums are held in 300 Seitz unless otherwise noted.			
August			
Thursday	30	Speaker:	David Banks, Duke University
(3:30 p.m.)		Title:	Statistical Challenges with Agent-Based Models
September			
Thursday	6	Speaker:	Andrew Nobel, University of North Carolina, Chapel Hill
(3:30 p.m.)		Title:	Mining differential correlation
Thursday	20	Speaker:	Joe Guinness, Cornell University
(3:30 p.m.)		Title:	Spectral Density Estimation for Random Fields via Periodic Embeddings
October Thursday (3:30 p.m.)	11	Speaker: Title:	Kamran Paynabar, Georgia Tech Low-Dimensional learning from High-Dimensional Streaming Data for System Monitoring and Prognostics
November			
Thursday	8	Speaker:	Veera Baladandayuthapani, University of Michigan
(3:30 p.m.)		Title:	Bayesian Models for Richly Structured Data in Biomedicine
Thursday	15	Speaker:	Catherine Calder, Ohio State
(3:30 p.m.)		Title:	The Geometry of Continuous Latent Space Models for Network Data
